Facilities

Tso Moriri Lake is 24 kms in length and 6 kms wide and is a hugely important sanctuary for waterbirds. Flocks of **Bar Headed Geese** and migratory birds such as **Black-Necked Ducks** are found around the lake.

You can also visit the campsites of the nomadic **Changpa** on a large meadow above **Korzok** village. Connected not to a specific place but to a spiritual ideal, the **Changpa** nomads of **Northern India** move across the **Roof Of The World**. **Changpas** can be seen with their flocks of sheep, goats and yaks around the lake.
